The Reno MSA Business Activity and Construction Indexes are created using the composite methodology introduced by the Department of Commerce and made popular by The Conference Board. All data variables are monthly, seasonally adjusted using the moving average method, and all series reported in dollar terms are adjusted for inflation. The Business Activity Index is based on data starting January 1995, with 1995=100. The Construction Index is based on data starting January 2001, with 2001=1000.

The Reno MSA Housing Affordability Index is based on a ratio of median family income to qualifying family income, the income necessary to purchase a median priced home in Washoe County. Qualifying income is estimated using a mortgage calculator with inputs for median home price, average 30-year fixed mortgage rate, and housing-related expenses (property tax, utilities, and mortgage insurance). Annual median family income data lags a year and is estimated quarterly using the national Employment Cost Index data for wage and salary increases for each quarter. This index is based on annual data between 1997 and 2018, with data starting in the 1st Quarter (1Q) 2019 estimated on quarterly basis.

The following variables are included in each index:

Business Activity Index

- MSA Employment
- WC Gaming Revenue
- WC Taxable Sales
- RTIA Passengers
- RTIA Cargo

Construction Index

- MSA Construction Employment
- WC Commercial Permits
- WC Commercial Permit Valuation
- WC Residential Permit Units
- WC Residential Permit Valuation

Housing Affordability Index

- WC Median Price of New and Existing SF Homes
- MSA Median Family Income
- US 30-Year Fixed Mortgage Rate

* MSA-Reno Metropolitan Statistical Area * WC-Washoe County * RTIA-Reno Tahoe International Airport *SF-Single Family

Reno MSA Business Activity Index

Reno MSA Business Activity Index increased between November and December 2019, the 24th month of growth after a small (0.20%) index decrease in December 2017.

The Reno MSA Business Activity Index provides a simplified picture of business activity in the Reno MSA region. While similar to our Reno MSA Leading Economic Index, this index excludes some local residential indicators and all national indicators to arrive at a local business activity index. As with the leading index, taxable sales and airport data for this index is projected using average 12-month, year-over-year change for the variable.

The Index shows a 0.39% increase between November and December 2019. The index increased by 3.09% over the same period last year (December

Series	Latest Period- December 2019	Prev. Period- November 2019	Change Prev. Period	Prev. Year- December 2018	Change Prev. Year
Taxable Sales (Washoe Co., SA, CPI)	453,006,742	451,879,566	0.25%	439,176,428	3.15%
Taxable Gaming Revenue (Washoe Co., SA, CPI)	42,613,625	42,793,728	-0.42%	43,745,974	-2.59%
CES Employment (Reno MSA, SA)	257,392	256,600	0.31%	244,008	5.48%
Airport Passengers (Reno Tahoe Airport, SA)	370,889	367,505	0.92%	350,841	5.71%
Airport Cargo Lbs. Shipped (Reno Tahoe Airport, SA)	12,241,641	12,146,483	0.78%	12,405,223	-1.32%
Business Activity Index Result	132.83	132.31	0.39%	128.85	3.09%

SA-Series results are seasonally adjusted. CPI-Series results are adjusted for inflation to 1995.

2018 and 2019).

Taxable gaming revenue series declined for much of the year, remaining lower than previous year. Airport cargo pounds shipped also declined for much of the year, but increased in December.

Reno MSA Construction Index

Reno MSA Construction Index increased between November and December 2019, the first increase after a ten-month of decline in the index.¹

The Reno MSA Construction Index provides a picture of the performance of the construction industry in the Reno MSA region. Currently, no single variable represents the condition of the construction industry in the area. By combining multiple construction-related indicators into a single number, the Construction Index represents the state of the construction industry each month, allowing for comparison of trends in the industry over time.

The index shows an increase of 4.35% between November and December 2019. The index declined by 26.18% compared to the same month in the previous year (December 2018 and 2019).

Series	Latest Period- December 2019	Prev. Period- November 2019	Change Prev. Period	Prev. Year- December 2018	Change Prev. Year
Reno MSA Construction Employment (SA)	19,675	19,608	0.34%	17,967	9.51%
Washoe Co. Commercial Building Permit Value (SA, CPI)*	20,282,050	15,675,010	29.39%	32,251,013	-37.11%
Washoe Co. Commercial Building Permits (SA)*	5.8	4.9	18.64%	24	-75.86%
Washoe Co. Residential Building Permit Value (SA, CPI)*	44,653,466	45,800,680	-2.50%	51,464,774	-13.23%
Washoe Co. Residential Building Permit Units (SA)*	318	332	-4.17%	382	-16.74%
Construction Index Result	88.61	84.92	4.35%	120.03	-26.18%

Source: Current Employment Statistics-Bureau of Labor Statistics and Building Departments of City of Reno, City of Sparks, and Washoe County.

SA-Series results are seasonally adjusted. CPI-Series results are adjusted for inflation to 2001.

*Includes data for Washoe County, City of Reno, and City of Sparks.

¹ It should be noted City of Reno building permit data has not been reported directly by the City since February 2019. These data were collected from the Accela database, but may be not directly comparable to historical data due to potential differences in the data reporting methodology.

Construction employment in the region continues to grow. Both residential permit series declined this month and compared to the same month last year. Commercial permits increased this month after months of decline, due to a number of large projects in unincorporated Washoe County.

Reno MSA Housing Affordability Index

The new Reno MSA Housing Affordability index increased between 3Q and 4Q 2019, as well as compared to the previous year (2018).

The goal of the Reno MSA Housing Affordability index is to track affordability of region’s housing over time by combining the three variables affecting affordability: income, interest rates, and prices. The index compares median family income to qualifying income (combination of above three variables).

A ratio of 100 indicates that median family income is sufficient to purchase a median-priced home. The 4Q 2019 index of 89.17 indicates median family income is 10.83% below the income necessary to qualify for median priced home.

The index increased by 1.45% between 3Q and 4Q

Series	Latest Period- 4Q 2019	Prev. Period 3Q 2019	Change Prev. Period	Prev. Year- 2018	Change Prev. Year
Median Price of New/Existing Homes (Washoe Co.)	406,157	407,500	-0.33%	400,000	1.54%
Median Family Income (MSA)	78,100	76,950	1.49%	75,800	3.03%
30-Year Fixed Mortgage Rate (US)	3.70	3.66	1.09%	4.01	-7.75%
Required Qualifying Income (Estimated)	87,586	87,547	0.04%	88,687	-1.24%
Housing Affordability Index Result	89.17	87.90	1.45%	85.47	4.33%

2019, making homes in the region slightly more affordable. This is due to a small decline in median price of homes and an increase in median family income. The index increased by 3.97% compared to 2018.
